

ALTERNATIVE ENERGY PROGRAMS

Zane State College is seeking qualified applicants for adjunct faculty positions to support its new alternative energy programs. Applicants with expertise in residential, commercial, and industrial energy systems management, solar photovoltaic and solar thermal systems, and wind energy systems, are encouraged to apply. Bachelors degree preferred; please list any industry recognized credentials and certifications.

Interested applicants must complete the Zane State College Application for Employment, cover letter, resume, and college transcripts. Please send documents to the Coordinator of Adjunct Services, Zane State College, 1555 Newark Road, Zanesville, OH 43701. For additional information, please contact Daniel Durfee at 740-588-1282.
