

Hello Applicants,

Thank you for your interest in the Radiologic Technology program. Due to COVID restrictions, currently only Genesis Hospital and Genesis Perry County are allowing observations. If you were able to complete observation at Southeastern Med prior to the restrictions, then you do not need any additional materials to cover observation hours.

If you observed only 8 hours, you will need to perform an interview on a Radiologic Technologist. This interview will include the technologists name, where they are employed, how long they have been a technologist as well as the questions below, along with any additional questions you wish to ask (please do not ask their salary). The format will follow APA guidelines and be double spaced, 12-point Times New Roman font. This paper needs to be placed into your application folder following the Observation Validation forms.

Interview questions:

1. What are the specific duties and responsibilities?
2. Describe a typical day/week?
3. What are the toughest issues that you deal with?
4. What part of this work do you find most rewarding?
5. What are some of the negatives with your job?
6. What type of setting, hours, atmosphere, etc. can be expected?
7. What obligation does this type of work place upon you outside of the ordinary work week?
8. What additional training or qualifications are necessary for advancement?
9. What are some of the job possibilities for experienced workers in the field?
10. How rapidly is the radiology field is growing?
11. What's something that most people don't know about being a radiologic technologist?
12. If the work you do was suddenly eliminated, what different kinds of work do you feel you could do?
13. Do people normally move to another facility/organization or do they move up in the facility/organization?

In conclusion, here are the application scenarios for observation:

1. Complete 12 hours of observation: 4 hours at Genesis Hospital, 4 hours at Southeastern Med, 4 hours at Genesis Perry County.
2. Complete 8 hours of observation: 4 hours at Genesis Hospital and 4 hours at Genesis Perry County along with interviewing a Radiologic Technologist.

Please email me at jfox2@zanestate.edu if you have questions.
