

Hello Applicants,

Thank you for your interest in the Radiologic Technology program. Due to hospital restrictions on observation students, we have changed the observation guidelines for the 2023 application year. As of January 30th, 2023, applicants no longer need to do observation hours.

You will be required to interview a 2nd-year RADT student. You will need to write a paper after the interview following APA guidelines and be double-spaced in 12-point Times New Roman font. This paper needs to be placed where your observation hour documentation would have been placed. Please email Quest Folck at qfolck@zanestate.edu to obtain contact information on a 2nd-year student.

The following questions are required to be asked, along with any other questions you have for the student:

1. What advice would you give to someone interested in the program?
2. How hard is the program?
3. Is it beneficial to work full or part-time during the program?
4. How much time outside of class do you study?
5. What area of radiology is your favorite?
6. What is your plan after school?
7. What got you interested in the program?

If you have questions, please do not hesitate to contact Quest at qfolck@zanestate.edu or call 740-588-4147.

Thank you,

A handwritten signature in black ink that reads "Quest Folck B.S., R.T.(R)(CT)".

Quest Folck, B.S., R.T.(R)(CT)

RADT Program Clinical Coordinator/Instructor
