Total observation time completed _____

Please read the questions in this packet and use them as a guide to observe the radiologic technologists as they perform their duties. After observing and talking with the staff, students, and Clinical Instructor, please answer all the questions as completely as possible for each clinical site. You do not need to write a book, however your answers should be more substantial than just a few words. Once you have completed answering the questions please place this documentation sheet in your application packet. **It is the student's responsibility to keep this packet throughout the observation process and bring it to each observation visit.

Student Signature _____

Student Name (please print) _____

Clinical Site #2

1. What things did the technologists do to assure the patient's physical and mental comfort during the examinations you observed?
2. List and describe a minimum of three different procedures that you observed (different from your first observation).
3. Please describe at least three duties which a radiographer performs on a daily basis.
4. Even though you are unable to observe a surgical procedure, please identify and describe at least two surgical procedures in which a radiographer would be involved.
